ASA DataFest

WASHINGTON, DC

What is it?

A weekend-long data analysis competition to find new insights and useful applications from a single dataset

Who can compete?

Hardworking <u>undergraduate</u> students in economics, statistics, mathematics, and related subjects

Where do I sign up?

Click here: <u>**2024 DC DataFest Registration**</u>
Registration deadline is April 5!

Join us in Virtually!

April 12-14, 2024

Hosted by:

2024 DC DataFest
FAQs

How do I sign up?
Please fill out the online registration form fully. You can register here: <u>2024 DC DataFest Registration</u>. We only need one application per team. **Registration ends April 5, 2024.**

Is this strictly a statistics activity? Or are the data likely to use other techniques outside of statistics techniques?
This is *not* a statistics activity—it's a data activity! The event is open to anyone with an interest in data, regardless of major.

Who is eligible to compete?
All <u>undergraduate</u> students are eligible.

How large are the teams?
Teams can be made up of two to five students, but we recommend at least three team members if possible.

Do I have to be part of a team to compete?
Yes.

Is the 2024 DC DataFest in person or virtual?
This year's DC DataFest will be virtual! The kickoff and data reveal will be **Friday, April 12,** via the Microsoft Teams platform. On **Sunday, April 14,** participants will present their findings to our judges virtually. **The 2024 DC DataFest winners will be announced on Sunday, April 14.**

What do I need to compete?
All you need is a laptop with tools for data analysis (there is no limitation on what software you use) and enthusiasm for data.
